Bouldering Safety

REMEMBER Safety is YOUR responsibility!
If you fall...you hit the ground.

1. You must climb down. Do not jump from the top.
2. If you “top out,” you must be able to turn around and climb down.
3. Do not crowd. Keep an arm’s length away from other climbers.
4. Do not stand or climb below another climber.
5. The higher climber has the “right of way.”
6. We strongly recommend that you spot climbers. We especially recommend that parents spot their children.
7. Climbing Wall staff will try to help, but may not always be able to monitor and supervise the bouldering wall.
8. Be courteous to other climbers; give everyone a chance to climb.
9. Move the pads below climbers whenever necessary.
10. HAVE FUN!
